*Charles Sturt University*

Bachelor of Equine Science  
*Charles Sturt University*

### Areas of Expertise

- Pasture agronomy
- Forage cropping
- Plant nutrition
- Soil management & analysis
- Dairy pastures & forage
- Equine pastures & nutrition

Emma is a Pasture Agronomy Consultant with Meridian Agriculture. Emma holds a Bachelor of Science in Agriculture and is currently undertaking a Masters of Science in Agriculture. Emma has worked in commercial agronomy roles since 2012, focused on pasture systems and supporting forage cropping across southern Australia.

Emma has been involved in pasture performance, animal production and farm planning within the dairy industry, in addition to hands on experience in the beef industry. Emma has been involved in the training and extension of technical agronomy updates within industry and to producers.

Emma is based out of our Yendon office in Victoria, and will be providing advice to individual clients while working alongside the wider Meridian Agronomy team.
