

Sinead Barker

- Bachelor of Agricultural Science with honors

Areas of Expertise

- Pasture agronomy
- Plant Nutrition
- Soil Management and analysis
- Animal Production Systems

Sinead is a Pasture & Livestock Consultant based at Meridian Agriculture's Western Districts office. She works alongside Andrew Speirs managing our range of pasture trials as well as working individually with clients in the areas of pasture performance, animal production and farm planning.

Her agronomic background has been focused on delivering individualised pasture and animal production advice, and in research around Australian merino production.

Sinead has managed several pasture and cereal variety trials before joining Meridian Ag, as well as previous consulting experience and hands on working knowledge of farm businesses and livestock production.
